To Mr Wersberg,

I have just finished reading your Whitewash series, it is the Best books on this subject. I was wondering if you have written any other books, I would be most interested in buying them. Can you please give me the book names? Also, If you plan to do any radio or TV shows, could you please tell me when. I would like to see or hear you.

Secondly, The newly appointed Assassination committe, headed by John Tunheim, will you be helping them? Is this an honest committee, or just a coverup to appease the public.?

I have enclosed a dollar to cover postage -

P.S. Your research is great, you are a true, honest, American Researcher. I love your books
